

Agated on CD3⁻CD56⁺ tonsil NK cells:**B**

Figure S4: Tonsillar NK cells do not express CCR7 and only a low number expresses CD83. Mononuclear cells from tonsil were stained with CD3 and CD56 to identify CD3⁻CD56⁺ NK cells. In addition cells were stained with antibodies against CD16 and CD83 or CCR7. (A) shows a representative experiment, and (B) summarizes data from four independent experiments (mean \pm s.d.).
