Additional data file 9. Results of incongruence length difference (ILD) test for pairwise comparisons of process partitions. Numbers in each cell is the *P* value of ILD test between row and column.

Partition	1st codon	2nd codon	3rd codon	Intron	Exon
2nd codon	0.273				
3rd codon	0.203	0.171			
Intron	0.062	0.102	0.999		
All the rest	0.057	0.140	0.999	0.109	0.109
