

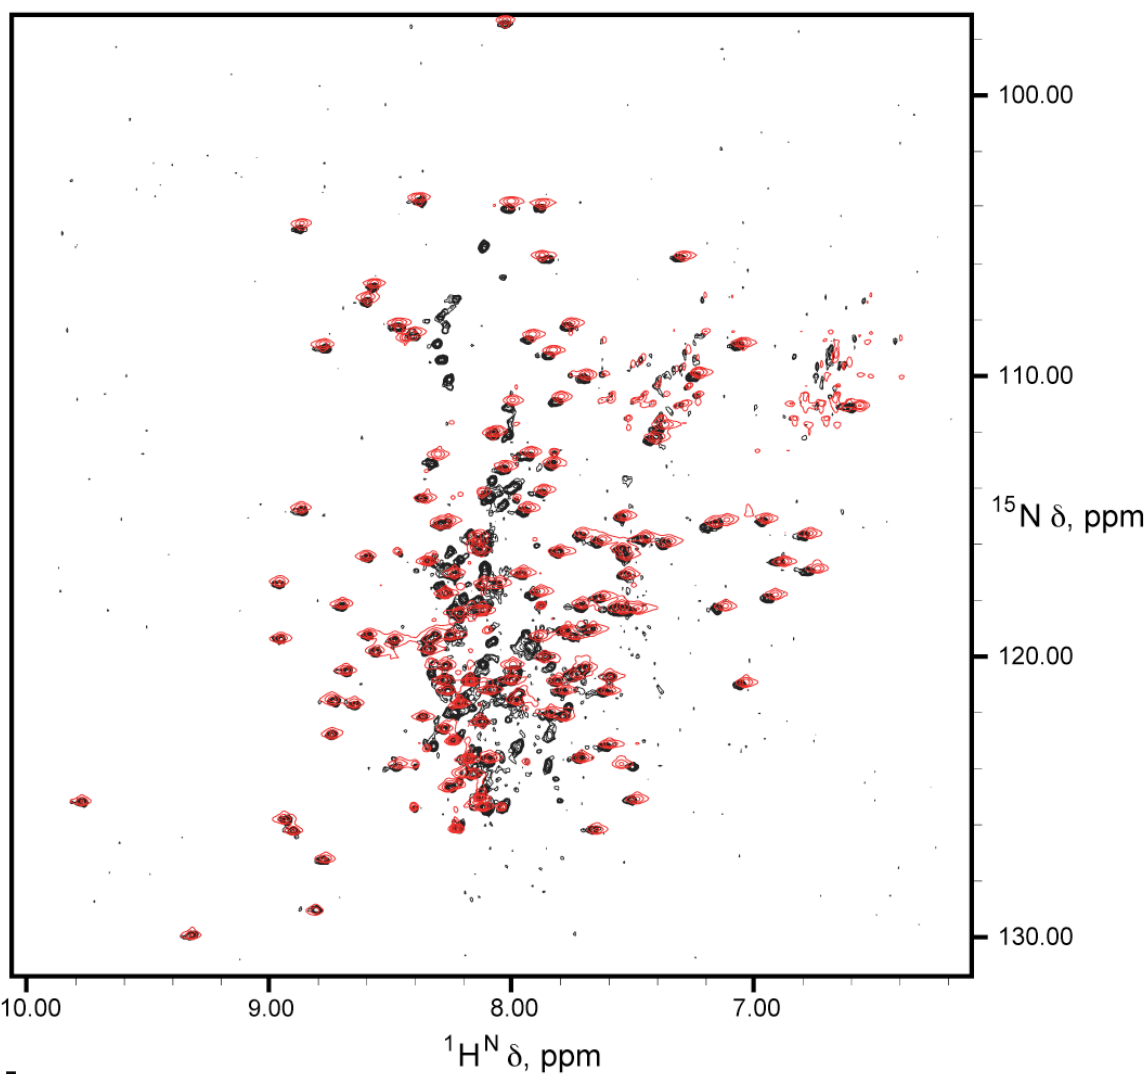

Figure S1

A

B

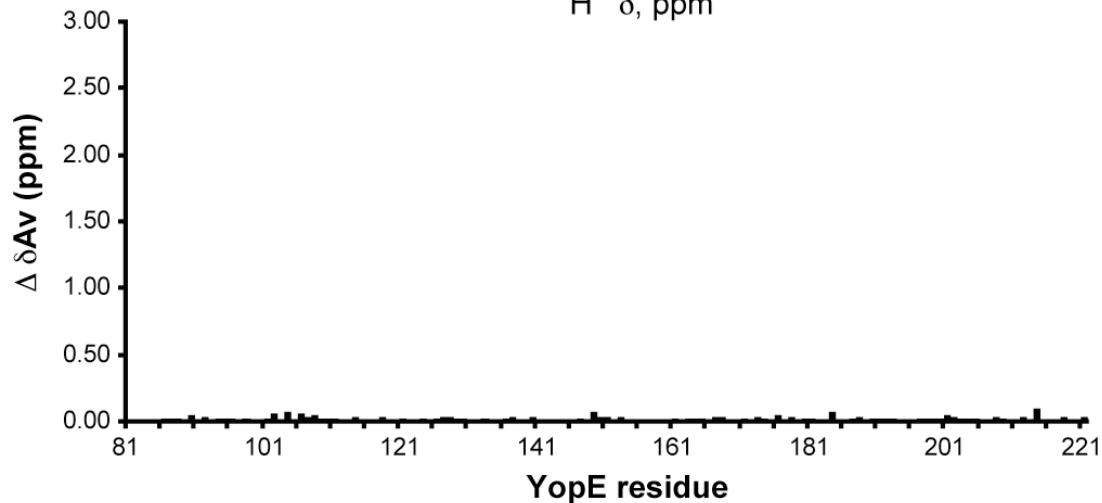

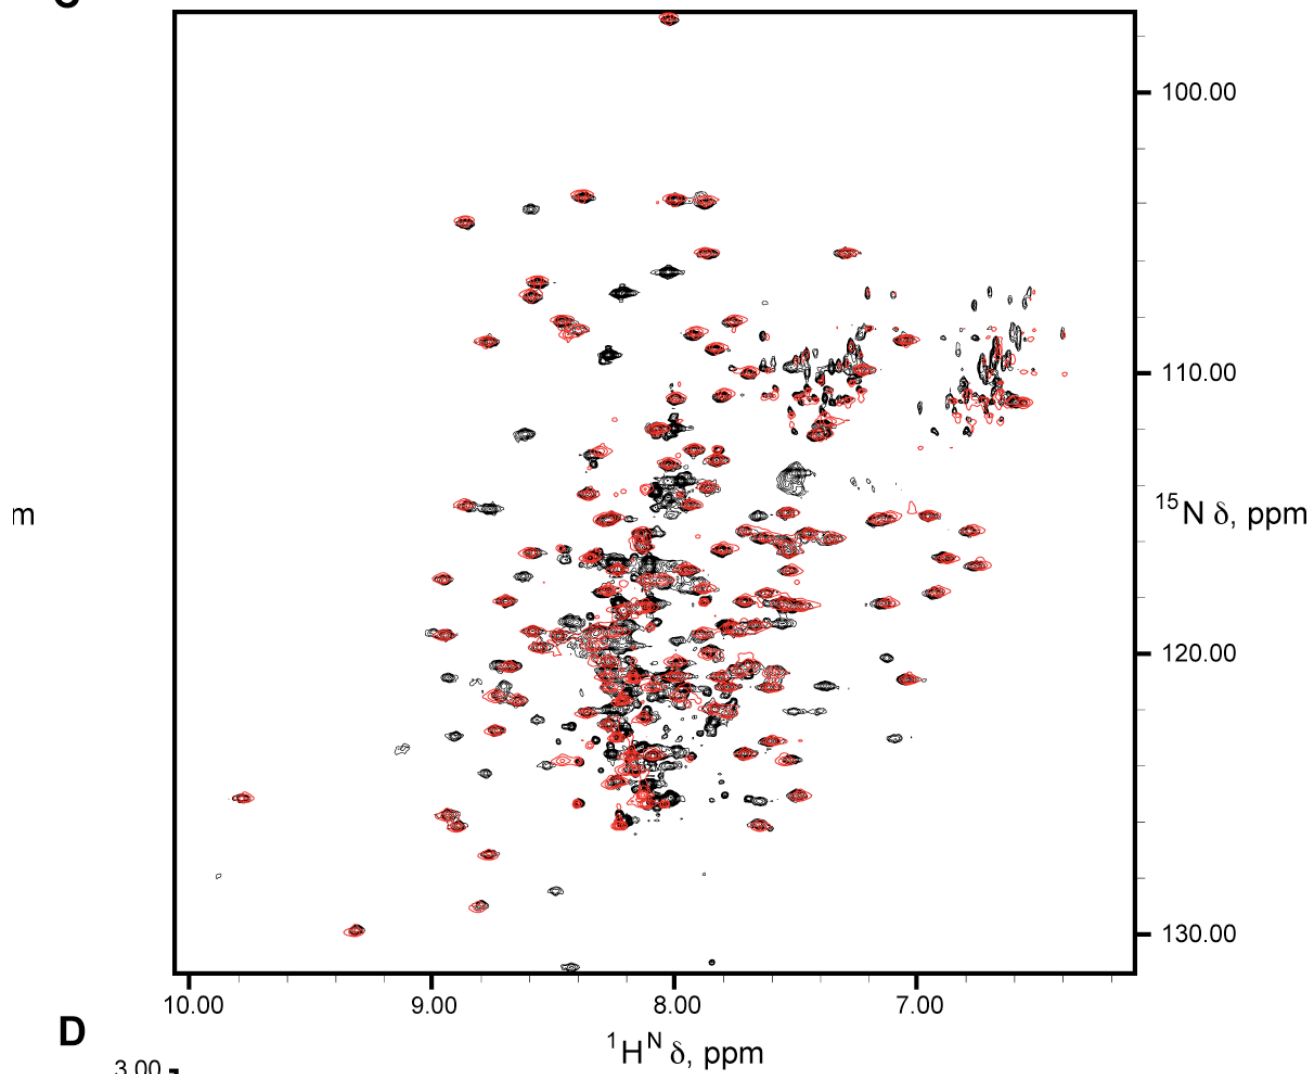

Figure S1. Structural integrity of renatured YopE and SycE-YopE. (A) ^{15}N , ^1H -TROSY NMR spectra of renatured ^{15}N -labeled YopE (black) and ^{15}N -labeled YopE(RhoGAP) (residues 81-219) (red). (B) Differences in ^1H and ^{15}N chemical shifts ($\Delta \delta_{\text{Av}}$) between YopE and YopE(RhoGAP). (C) ^{15}N , ^1H -TROSY NMR spectra of renatured SycE- ^{15}N -labeled YopE (black) and ^{15}N -labeled YopE(RhoGAP) (red). (D) Differences in ^1H and ^{15}N chemical shifts ($\Delta \delta_{\text{Av}}$) between SycE-YopE and YopE(RhoGAP).
