

Table S1

	AdMLP	<i>URA1</i>
TBP-DNA	17.9 ± 1.8 min	70.4 ± 8.3 min
Mot1-TBP-DNA	Fast phase: 1.8 (-0.5, +0.7) min Slow phase: 92.2 (-12.0, +17.0) min	181.9 ± 67.2 min
Mot1-TBP-DNA + ATP	0.91 ± 0.09 min	0.96 ± 0.1 min

Comparison of the rates of dissociation of TBP from the AdMLP (Sprouse et al. EMBO 25:1492 (2006)) and *URA1* promoter (Figure 8, this study) either alone, or in the presence of Mot1 ± ATP.
