Information-seeking behavior of medical residents in clinical practice in Bahia, Brazil

Martha Silvia Martinez-Silveira, MLS; Nanci Oddone, PhD

APPENDIX

Questionnaire (translated from the original Portuguese instrument), Federal University of Bahia, Brazil, Institute of Information Science, master in information science

Research about the information behavior of the medical resident.

Instructions:
 Answer the questions referring your patient care activities
 You can mark more than one option in each question (except when specified)
1. Years old?
2. Sex \Box F \Box M
3. Residency in:
4. Undergraduate institution:
5. Post-graduate experience: \square Specialization \square Other residency finished \square NA
6. How many hours a day do you spend in patient care? hours a day
7. How many patients do you assist in a typical day? patients
8. Several studies published about information needs of physicians have shown that during
patient care, several doubts and questions appear for which it is necessary to consult sources
of scientific information (books, journals, databases, etc.). In the last 30 days, did you use some
of the resources below to look for information related to your clinical practice (patient care)?
□ Library/librarian
☐ Physician supervisor or expert
☐ A colleague or other health professional
□ Databases (ex. MEDLINE, Lilacs, Embase)
☐ Medical websites (e.g., Bireme, Scielo, MD-Consult, Bibliomed, etc.)
□ Capes portal
□ Your own collection
□ Search engines (e.g., Google, Yahoo, Cadê, etc.)
Others (specify):
□ Did not
9. They are many factors that can hinder information searches. Taking into account those
factors, which of the situations below motivate you more to seek for information to answer
questions appearing during patient care? (If you never encounter questions that require
looking for information, skip to the 11th question.)
□ Patient questions that await an answer

Supplemental electronic content to J Med Libr Assoc Apr;96(4):DOI: 10.3163/1536-5050.96.4.016 www.mlanet.org © Martinez-Silveira, Oddone 2008

	Special interest in this patient
	Evidence of an unusual or less known case
	Curiosity
	Doubts or insecurity
	Fear of medical error
	Interest in researching or publishing about the case
	Must present the case to the supervisor or in a meeting, etc.
	Other (specify):
	When you decide to consult the literature, what would prevent you from concluding that
	consultation? (If no obstacles or difficulties prevent you from concluding a consultation, skip to the following question.)
	No library available or library without appropriate collection or services
	Difficulties in finding relevant documents
	No computer
	No personal collection
	Language barriers
	Do not know how to deal with electronic information resources (Internet, databases, etc.)
	Lack of time
	Cost of documents
	Other barrier (specify):
	Is it part of your professional routine to visit medical libraries?
	Yes Which one?
	No
	Seldom
	ny? (Select the option that best applies to your case)
	Because you do not know of an available library or you do not have access to a medical
	library with a good collection.
	Because medical libraries' collections are outdated
	Because medical libraries do not have the bibliographical material that you need
	Because medical libraries do not have a librarian available to consult
	Because you think that medical librarians are not well prepared to consult
	Because it is difficult for you to seek information in the catalog or on the library shelves
	Because the libraries' working hours are not convenient
	Because the libraries do not have appropriate places to study or conduct research
	Because the libraries do not make personalized bibliographic search services available
	Because the libraries do not have enough computers for research purposes
	Because you think that you do not need libraries and using the Internet is enough
10	Another reason (specify)
12.	When you seek information, what media you prefer?
	Electronic or digital
\perp	Printed

Supplemental electronic content to J Med Libr Assoc Apr;96(4):DOI: 10.3163/1536-5050.96.4.016 www.mlanet.org © Martinez-Silveira, Oddone 2008

13. Indicate in order (1st, 2nd, 3rd,) which of the resources below you prefer to u	ıse when you
seek for information	
Library or librarian	
Supervisor physician or more experienced physician	
A colleague or other health professional	
Bibliographic databases (i.e., MEDLINE, Lilacs, Embase, etc.)	
Capes Portal	
Resources of your own collection	
☐ Medical websites (i.e., Bireme, Scielo, MD Consult, Bibliomed)	
☐ Internet search engines (e.g., Google, Yahoo, etc.)	
Other (specify):	allastion?
Indicate the approximate amounts. (If you do not have a private collection, ski	
following question).	p to the
Books ☐ Yes ☐ No	
How many? \Box 1 to 10 \Box 11 to 20 \Box more than 21	
Printed journals subscription ☐ Yes ☐ No	
How many national? How many foreign?	
■ Electronic journal subscription □ Yes □ No	
How many national? ☐ How many foreign? ☐	
■ Scientific CD-ROMs □ Yes □ No	
How many? \Box 1 to 10 \Box 11 to 20 \Box more than 21	
■ Scientific videos □ Yes □ No	
How many? \Box 1 to 10 \Box 11 to 20 \Box more than 21	
■ Conference proceedings, etc. □ Yes □ No	
How many? \Box 1 to 10 \Box 11 to 20 \Box more than 21	
■ Subscription to portals or other online resources □ Yes □ No Which?	
1	
2	
Other resources (specify)	
■ Do you have a computer with an Internet connection at home? ☐ Yes ☐ No	
□ Dial-up connection	
☐ Broadband connection	
15. Indicate in order (1st, 2nd, 3rd,) which of the bibliographic resources below y	vou use more
often	,
□ Books	
☐ Printed journal articles	
☐ Electronic journal articles	
☐ Communication or presentation of congress, meetings, etc.	
☐ Scientific CD-ROM	
☐ Scientific videos	
☐ Other online resources (website information, images, etc.)	
Other (please specify):	

Supplemental electronic content to J Med Libr Assoc Apr;96(4):DOI: 10.3163/1536-5050.96.4.016

www.mlanet.org © Martinez-Silveira, Oddone 2008

16.	. Nowadays, scientific information can be found in diverse formats. Indicate in order (1st,
	2nd, 3rd,) which of the modalities below you prefer to use:
	Original articles
	Narrative reviews
	Systematic reviews or meta-analysis
	Conference proceedings
	Research reports
	Guidelines
	Others (specify)
17.	Through which of the resources below it is more frequent that you receive information on
	innovations or recent discoveries in your professional area?
	Library or librarians
	Colleagues, professors, or other health care professionals
	Printed or electronic journals
	Pharmacy industry advertisement
	Mailing discussion lists
	Medical websites
	Informal events (discussion, meeting, etc.)
	Formal events (congress, symposium, etc.)
	Other (specify):
	Which of the resources below do you believe to be indispensable for better professional
	practice?
	Hospital library with an up to date collection
	Clinical librarian
	Computer with Internet access in clinical setting
	Electronic or printed journal in clinical setting
	Books available in clinical setting
	Congress annals available in clinical setting
	Medical website subscription available in clinical setting
	Other (specify):
	Do you complete bibliographic searches or do you ask for assistance?
	You search
	You ask someone to search (Go to 28th question)
	Both
	You do not search (Go to 28th question)
20.	. How did you learn techniques of database searching?
	You received orientation or training from a librarian
	You received orientation or training from a professor during an undergraduate or graduate
	course
	You took a class that covered this subject
	You learned in tutorials or using the "Help" button in databases
	You learned by practicing on your own
	You read a book, articles, or website about searching

25.	. What factors do you use to select the documents that you would like to read to try to answer
	the questions appearing during your clinical practice?
	Text in Portuguese
	Brief articles rather than longer articles
	Free full text
	Easy access to full text
	The currency and/or innovation of the information
	Full text in PDF format
	Other factors (specify):
26.	. How do you obtain the full text of the documents selected in the databases?
	You go to a library and ask if the documents are available
	You go to a library and order the documents using their document delivery system
	You order the document from an Internet document delivery system
	You only obtain what it is freely available in the database
	You search the Portal da Capes
	You search websites (Scielo, Free Medical Journals, etc.)
	Other (specify):
27.	. How do you like to read electronic documents?
	Read on the computer screen
	Print the document to read
28.	. Which is the most frequent subject of your questions? (Choose only <i>one</i> option)
	Drug therapy
	Other therapy (besides drug therapy)
	Diagnosis or diagnostic test
	Prognosis
	Etiology
	Epidemiology
	Prevention
	Other (specify):
	I do not have questions.
29.	. Still thinking about the subjects of your questions, which of the options below would be the
	second more frequent? (Choose only one option)
	Drug therapy
	Other therapy (besides drug therapy)
	Diagnosis or diagnostic test
	Prognosis
	Etiology
	Epidemiology
	Prevention
	Other (specify):
	I do not have questions.

Critical incident

Think now about any specific occasion during the last month when you needed information related to a patient's health. Do not include information needs about your research, courses, academic works, or questions related to patient data (i.e., age, blood pressure, glucose level, etc.),

30.	
	option)
	Drug therapy
	Other therapy (besides drug therapy)
	Diagnosis or diagnostic test
	Prognosis
	Etiology
	Epidemiology
	Prevention
	Other (specify):
	You did not need any information last month.
	Why?
	□ No particular reason
	☐ You were not in clinical service
	☐ You did not work last month
	☐ You do not remember if you needed information
	□ Other (specify)
31.	Where did you try to find the information?
	Library/librarian
	Physician supervisor or expert
	A colleague or other health professional
	Databases (e.g., MEDLINE, Lilacs, Embase)
	Medical website (e.g., Bireme, Scielo, MD Consult, Bibliomed, etc.)
	Capes Portal
	Your own collection
	Search engines (e.g., Google, Yahoo, Cadê, etc.)
	Other (specify):
	Did not find information (End of the questionnaire)
32.	What was the result of your research?
	Success (you found the information)
	Partial success (incomplete information; you found it later, or you did not have enough time
	or the appropriate resources)
	You did not find the information (end of the questionnaire)
	Other (specify):
33.	If you found information, what was its immediate impact?
	It refreshed your memory of details or facts you may have forgotten

Supplemental electronic content to J Med Libr Assoc Apr;96(4):DOI: 10.3163/1536-5050.96.4.016

www.mlanet.org © Martinez-Silveira, Oddone 2008

	It proved what you already knew or suspected
	You could use at least some of the information immediately
	You found new information
	It stimulated your interest in further exploration of the theme
	It did not have any impact
	Other (specify):
34.	Did the information you found contribute to modify or to explain a decision taken previously? If so, which one?
	Choice of drug therapy
	Choice of other kind of therapy
	Number of treatments proposed
	Diagnostic test required
	Choice of treatment strategy
	Recommendations made to the patient
	Nothing was modified or explained
	Other (specify):
35.	Did the information you found contribute to avoiding some of the following procedures?
	Patient hospitalization
	Patient return for new consultations
	Drug therapy
	Surgery or other interventions
	Inappropriate recommendations
	No specific contribution
	Other (specify):
