Corrections

December 2003;95:1228: The publishing company for Joye Carter’s book review should have read Biblical Dogs Publishing, not Quality Books.

December 2003;95:1198–1200: The chart on page 1199 of “Familial Clinodactyly of the Fifth Finger” should have appeared as such:

January 2004;96:53–60: On page 53, the second author’s last name should be “Moseley,” rather than “Mosley” as printed.
