

Additional data file 12: Mutagenesis of the YRE and CgYRE motifs.

Mutations of YRE and CgYRE motifs in promoter of *ScFLR1* and *CgFLR1* genes were obtained using the procedure described in Methods (see the main text). Sequences of motifs before and after the mutagenesis procedure are shown below (Figure S12).

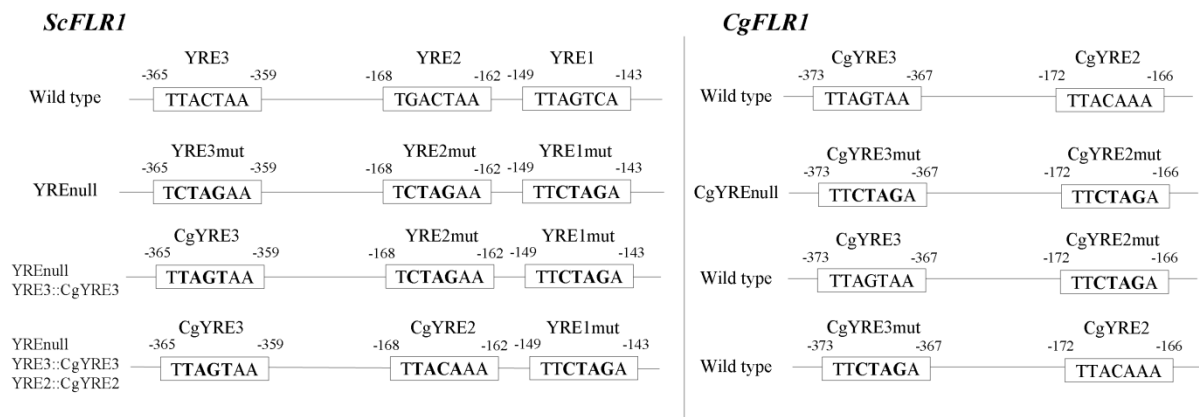

Figure legend S12: Mutagenesis of the YRE and CgYRE motifs.
