

**Supplementary Table 1** Average results from the functional localizer. The t-value of the peak voxel and number of voxels are reported from regions-of-interest localized in native non-standardized space, and all analyses were performed on these regions-of-interest. Mean Talairach coordinates are reported for comparison with other studies only.

<b>Region-of-Interest</b>	<b># of subjects (/15)</b>	<b>t-value of Peak Voxel</b>	<b># of Voxels (FDR; q&lt;0.05)</b>	<b>X</b>	<b>Y</b>	<b>Z</b>
Amygdala	5	4.90 $\pm$ 0.63	136 $\pm$ 76	17 $\pm$ 1	-3 $\pm$ 1	-10 $\pm$ 1
Inferior Frontal Gyrus	10	4.79 $\pm$ 0.23	238 $\pm$ 102	42 $\pm$ 1	15 $\pm$ 2	25 $\pm$ 3
Anterior Paracingulate	13	5.30 $\pm$ 0.31	881 $\pm$ 604	2 $\pm$ 2	59 $\pm$ 1	2 $\pm$ 2
