2/9/2001	7/28/2002	535	1.28E+05	9.00E+03	None
2/9/2001	8/8/2002	546	1.37E+05	1.60E+04	None

* the number of days post dose is calculated relative to the dose date 2/9/2001 (one time dose of 0.1 micro Ci of Ca-41)

** the Ca-41 to Ca ratio is multiplied by a factor of 10^{15} for convenience

*** the AMS error is quite simply treated as part of the random variation in the Ca-41 to Ca ratio in the statistical model
