

Supplementary Data

Sheet Title	Contents
1 Summary	Summary of data sheets in Supplementary Data
2 Control Complete Dataset	Control microarrays: complete dataset
3 Control Regulated Genes	Control microarrays: up- and down-regulated genes
4 SC5314 Complete Dataset	SC5314 microarrays: complete dataset
5 SC5314 - Up genes	SC5314 microarrays: up-regulated genes
6 SC5314 - Down genes	SC5314 microarrays: down-regulated genes
7 NGY152 Complete Dataset	NGY152 microarrays: complete dataset
8 NGY152 - Up genes	NGY152 microarrays: up-regulated genes
9 NGY152 - Down genes	NGY152 microarrays: down-regulated genes
10 Kidney Comparisons	Comparison of NGY152 expression profiles in different kidneys
11 Expression v Phenotype	Gene expression versus virulence phenotype
12 Primers	PCR primers used in this study
13 <i>In vivo</i> versus YPD	Microarray data comparing <i>C. albicans</i> grown <i>in vivo</i> or in YPD (relative to RMPI)
14 RNA integrity	Integrity of RNA preps from fungal cells infecting kidney
15 SC5314 versus NGY152	qRT-PCR of transcript levels in SC5314 and NGY152
