

1
2
3 1 Supplemental Data File 1. Quantile-quantile plots. Quantile-quantile plots are shown for each of
4
5 2 the 22 comparisons listed in Table 1 (e.g., see Figure 3).
6

7
8 3
9
10 4 Supplemental Data File 2. AFT model diagnostic plots. A series of diagnostic plots are shown
11
12 5 for evaluating goodness-of-fit of AFT models for each of the 22 comparisons listed in Table 1.
13
14 6 Graphical analyses of case-deletion influence measures, observed versus fitted survival curves,
15
16 7 cox-snell residuals, martingale residuals, deviance residuals and score residuals are presented.
17
18
19 8

20
21
22 9 Supplemental Data File 3. Log-cumulative hazard plots. Log-cumulative hazard plots are shown
23
24 10 for each of the 22 comparisons listed in Table 1 (e.g., see Figure 5).
25

26
27 11
28
29 12 Supplemental Data File 4. Quantile regression analyses. Results from quantile regression
30
31 13 analyses are shown for each of the 22 comparisons listed in Table 1 (e.g., see Figure 6).
