

Supplementary Figure 1

sFigure 1. CD4⁺ T cells down regulate CD4 after in vitro stimulation. (a) sorted naive CD4 T cells down regulate CD4 and up regulate CD8 α after in vitro stimulation with SEB. (b) CD4 is down regulated after stimulation with either anti-CD3 or ConA 5, 7, and 9 days after stimulation. (c) CD8 α is up regulated after anti-CD3 or ConA stimulation.
