

LEGENDS TO SUPPLEMENT FIGURE

Supplement Figure 1. Immunoblot of retinal homogenates of wild-type, *Rpgrip1^{nmf247}* (P16) and *Rpgrip1^{tm1Tili}* (P17) mice with Ab#22. Ab#22 detects ~70kD band (arrow) in wild-type that was absent in both *Rpgrip1^{nmf247}* and *Rpgrip1^{tm1Tili}* mutant mice. In *Rpgrip1^{tm1Tili}* mice, a strong RPGRIP1-immunopositive band was observed near 80kD (arrowhead), which was not found in wild-type or *Rpgrip1^{nmf247}* mice. HSC70 serves as a loading control.
