

RULES: If there are no full passes, observe animal for 1 minute and complete Section 1 & 2.

Complete Sections 1&2 by circling the predominance of each movement seen during the 1 minute observation period

Circle the predominant digit position and paw placement observed during the 1 minute observation period

SECTION 1

SUM:					

None= no movement of that joint observed during the 1 minute period

Pred. No= the animal is predominantly NOT moving the joint being observed during the 1 minute period

Pred. Yes= the animal IS predominantly moving the joint being observed during the 1 minute period

***IF THERE IS ANY QUESTION ABOUT ANY MOVEMENTS OR POSITIONS, ALWAYS SCORE TO THE DEFICIT.**

COMMENTS: _____

RULES: If there is at least 1 full pass (4 consecutive steps of the hindlimb), complete Section 3 by recording the movements observed during each pass. Score a maximum of 3 passes per side of body.
