Table S1. Stimuli

Condition 1	chocolate in the mouth + gray visual stimulus	 
Condition 2	picture of chocolate	
Condition 3	chocolate in the mouth + a picture of chocolate	 
Condition 4	strawberry in the mouth + gray visual stimulus	 
Condition 5	picture of moldy strawberries	
Condition 6	strawberry in the mouth + a picture of moldy strawberries	 
Rinse condition	tasteless rinse control solution + gray visual stimulus	

Notes: The term 'chocolate in the mouth' refers to the intra-oral delivery through a teflon tube of 0.5 ml of a fine liquid chocolate, which was identical for all such trials, and which could not be seen by the subject. The term 'strawberry in the mouth' refers to the intra-oral delivery of 0.5 ml of an unpleasant strawberry flavored drink through a tube that also could not be seen by the subject. The term 'picture of chocolate' refers to a picture of a bar of brown (i.e., milk chocolate) shown on the display screen, and the term 'picture of moldy strawberries' to a picture of moldy strawberries.
