

## Legend for online Figures

**Online Figure 1.** Multipoint Logarithm of the odds (LOD) score (y-axis) from the genome wide linkage analysis for Ang-2. X-axis: Chromosomal position. Analyses were adjusted for all significant correlates of Ang-2 (Table 2).

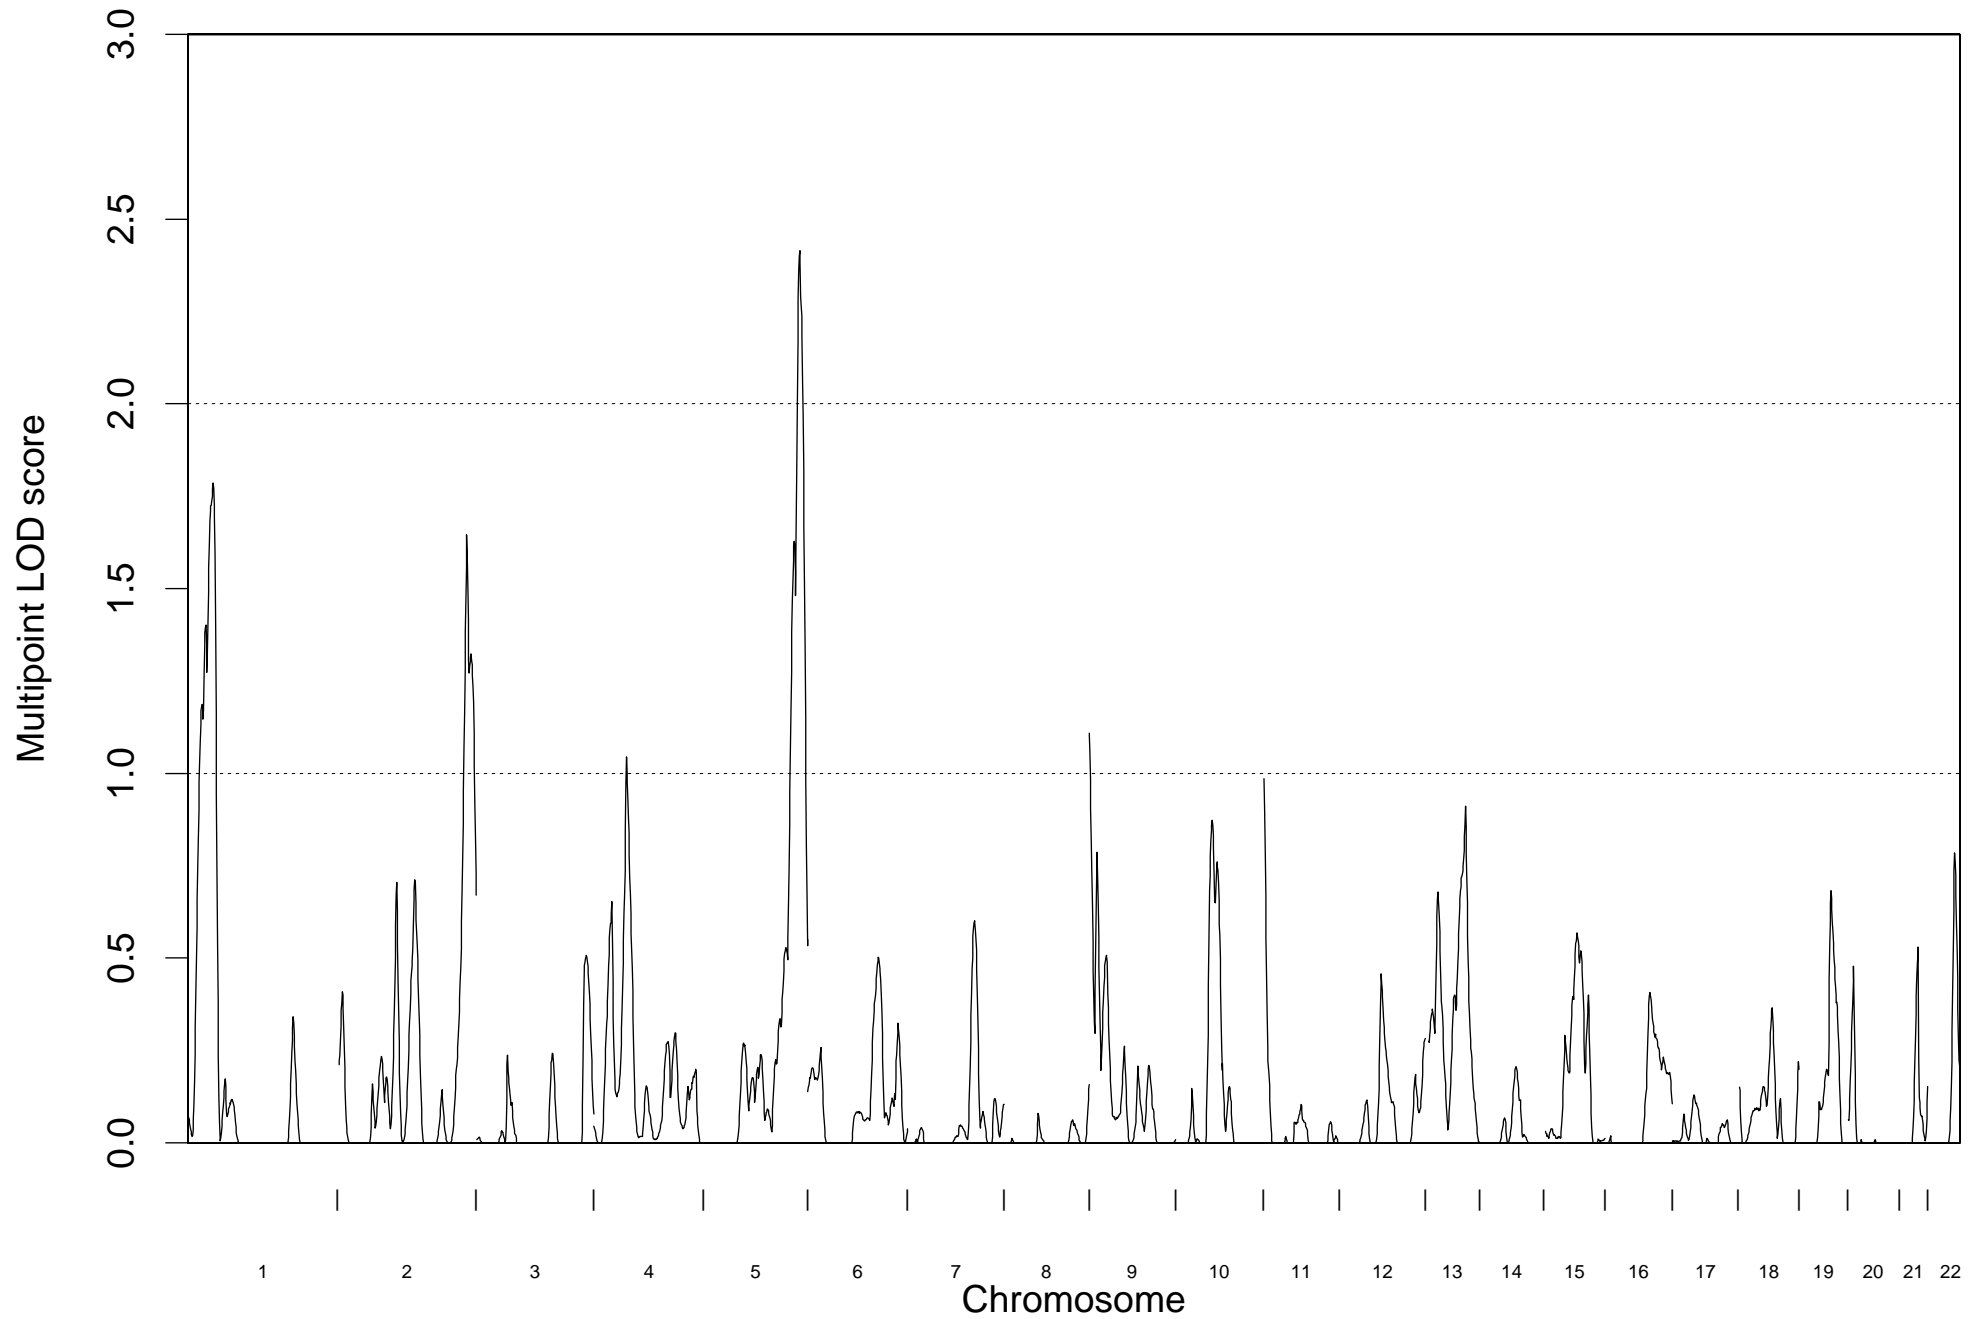

**Online Figure 2.** Multipoint Logarithm of the odds (LOD) score (y-axis) from the genome wide linkage analysis for sTie-2 levels. X-axis: Chromosomal position. Analyses were adjusted for all significant correlates of sTie-2 (Table 2).

Type of file: figure

Label: Online figure 1

Filename: Online Figure 1.pdf

# In\_Ang2: multivariable adjusted

Type of file: figure

Label: Online figure 2

Filename: Online Figure 2.pdf

# In\_Tie2: multivariable adjusted
