Rev

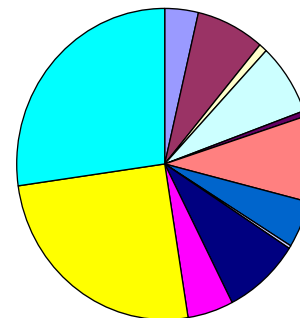

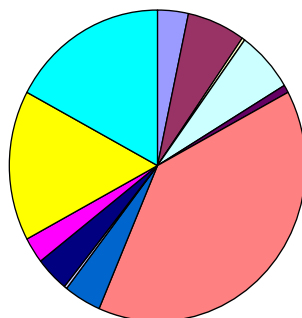

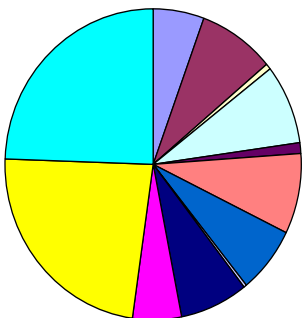

Cellular component

- membrane enclosed lumen
- macromolecular complex
- organelle
- extracellular region
- organelle part
- envelope
- cell part
- cell

Molecular function

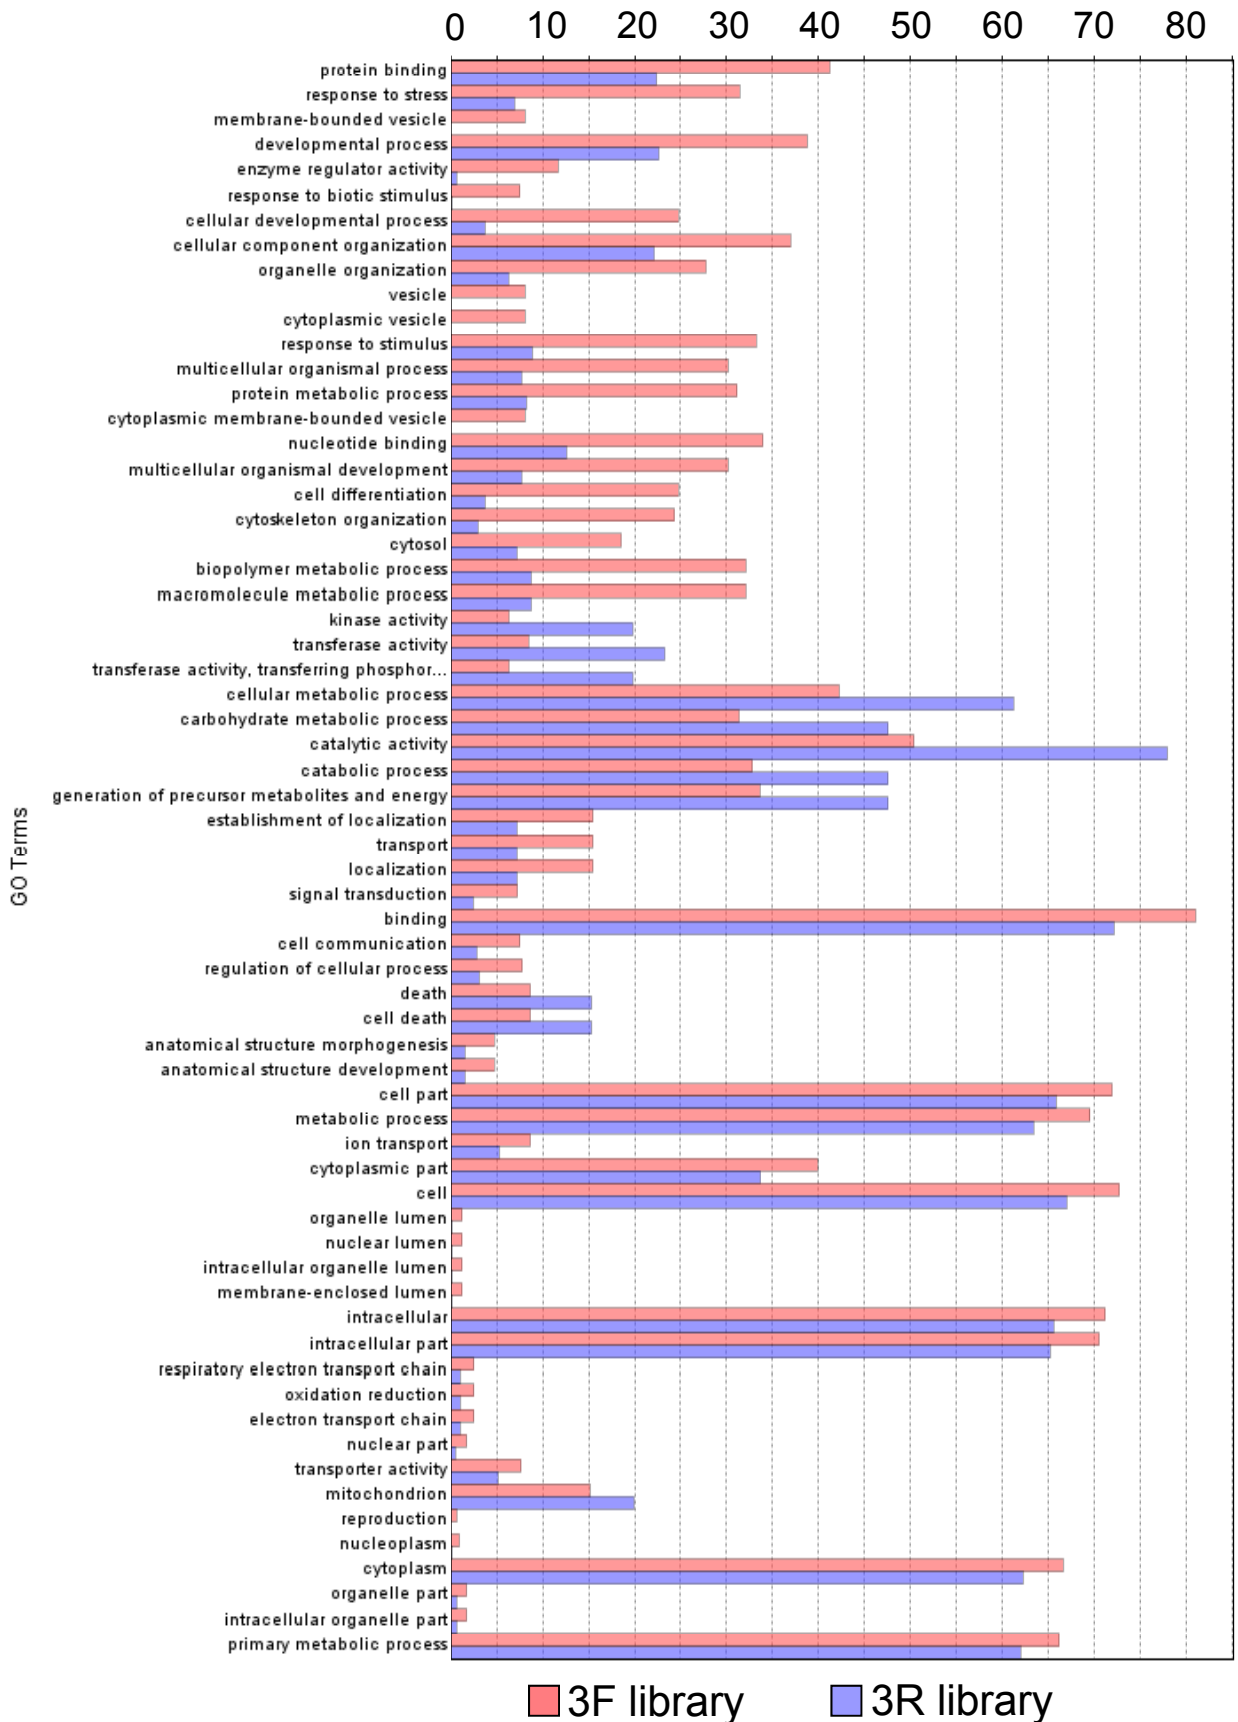

- transporter activity
- catalytic activity
- translation regulator activity
- molecular transducer activity
- transcription regulator activity
- structural molecule activity
- electron carrier activity
- antioxidant activity
- enzyme regulator activity
- binding

Biological process

- multicellular organismal process
- localisation
- growth
- establishment of localisation
- reproduction
- biological regulation
- developmental process
- viral reproduction
- regulation of biological process
- response to stimulus
- metabolic process
- cellular process
