Figure S 5: Comparison with RegTransBase (RTB) version v5. Here we only consider domains with the TVSR sequence. Data are detailed by domains with a same sequence in (AA-15, AA-16). Lines to help visualization. A) Blue line: number of TFs in our data set (Loc. Reg., local regulation); green line: number of these for which at least a BS was found; red line: number of TFs in RTB –in this database TFs are always associated to BSs. B) Total number of BSs (green line: this work, red line: RTB).
