 Personal Patient Profile - Prostate 

Based on your answers earlier, it looks like you are dealing with sexual symptoms or erectile dysfunction right now.

We suggest you speak with your doctor about it, something like this:

"Well doctor, I want to mention, I have trouble with sexual interest (or activities) _____(fill in with when and how). Would any of the treatments affect this?"

Touch the "Play Movie" button if you would like to see a video about talking it over with your doctor.
