### 1. Authorship Responsibility, Criteria, and Contributions.

Each author should meet all criteria below (A, B, and C) and should indicate general and specific contributions by reading the criteria and checking the appropriate lines.

- A. I certify these three things:
- The manuscript represents valid work and neither it nor another one that that I have written with substantially similar content has been published or is being considered for publication elsewhere, except as described in an attachment.
  - If asked, I will provide or fully cooperate in obtaining and providing the data on which the manuscript is based so the editors or their assignees can examine it.
  - For papers with more than 1 author, I agree to allow the corresponding author to
    - be the main correspondent with the editorial office,
    - review the edited manuscript and proof, and
    - make decisions about releasing manuscript information to the media, federal agencies, or both.

If I am the only author, I will be the corresponding author and agree to handle these responsibilities.

- B. I have given final approval of the submitted manuscript.

Yes  No

- C. I have, or a coauthor has, had sufficient access to the data to verify the manuscript's scientific integrity.

Yes  No

- D. I have participated sufficiently in the manuscript to take public responsibility for (check only one)

part of the content  the whole content.

- E. To qualify for authorship, you must have made substantial contributions to the intellectual content of the paper. Please indicate your contribution(s) to this manuscript. Check all that apply.

The American Heart Association, Inc. (AHA), a New York not-for-profit corporation, located at 7272 Greenville Avenue, Dallas, Texas 75231, and the Author hereby agree:

In consideration of the AHA reviewing and editing the "Work" described below for first and exclusive publication,

Journal HYPERTENSION

Manuscript number \_\_\_\_\_

First author LIEB, DC

Title of "Work" RELATIONSHIP BETWEEN VOLT OF  
RENAL CYPHIC GENE AND INTERSTITIAL  
HYDROSTATIC PRESSURE IN PRESSURE-NAGNATED

The author who signs below hereby assigns, conveys, and otherwise transfers all rights, title, interest, and copyright ownership in this "Work" to the AHA when the AHA accepts it for publication.

- "Work" means the material submitted for publication plus any other related material submitted to the AHA.
- The rights assigned to the AHA include (but are not limited to) the rights to
  - edit, publish, reproduce, distribute copies, prepare derivative works, include in indexes or search databases in print, electronic, or other media, (whether or not they are used when this agreement is executed), and
  - claim copyright in this "Work" throughout the world for as long as it is copyrighted, including renewals or extensions.

All accepted "Works" become the AHA's property and may not be published elsewhere without the AHA's prior written permission.

- Authors may use parts of the "Work" (eg, tables, figures) in subsequent works without asking the AHA's permission.

For "Works" created under grant and accepted for publication in an AHA journal on or after May 2, 2005, the author may cause the "Accepted Version" of the "Work" to be posted on the Web archive of a body that funded all or part of the "Work", provided that this post appears no sooner than 6
