

Ltbp3

Ltbp4

Supplemental Figure 1. Expression of *Ltbp3* and *Ltbp4* in mouse embryos. In situ hybridization (ISH) was performed on parasagittal sections of E16.5 embryos. The expression patterns of *Ltbp3* and *Ltbp4* are similar and both transcripts are detected at higher levels in developing lungs (L), bones (B), heart (H) and brown adipose tissue (A). *Ltbp3* is also expressed in some regions of the brain (arrowheads). Bars: 500 μ m.
