

Article Title: A TLR4-interacting Surfactant Protein-A-derived Peptide Suppresses TNF- α Release from Mouse JAWS II Dendritic Cells.

Authors: Awasthi S, Brown K, King C, Awasthi V, Bondugula R. J Pharmacol Exper Ther.

Supplemental Data (1): Characterization of purified native baboon lung SP-A. (A): Purified baboon SP-A (5 μ g in each lane) protein was run under reducing (+ heating, + DTT) and partially-reducing (+ heating, no DTT) condition on SDS-PAGE gel and stained with SYPRO-ruby stain.

(B): Immunoreactivity of purified SP-A (5 μ g) by western blotting with SP-A-specific antibody. The SP-A protein was run on reducing SDS-PAGE gel prior to western blotting.
