

2DL4 only

2DL4 and Rab5

2DL4 + Triad3a

Supplemental Figure 1. Tile array of individual z-sections of 2DL4/Rab5 staining from two cells shown as a max-projection in Figure 8A. Overlaid fluorescence images of individual z-stack sections from two cells stained for Rab5 from each condition (\pm Triad3A expression). 2DL4 is shown in red and Rab5 is green.
