

Supplementary Figure 1

Supplementary Figure 1. c-Fos in the ARH and DMH following acute i3vt RSG.

c-Fos immunoreactivity in the arcuate (ARH, **a**) or dorsomedial (DMH, **b**) hypothalamus (T-test) at 1 h following 1 μ g i3vt RSG. The mean for each group is depicted \pm S.E., $n = 3-6$ animals per group.
