

SUPPLEMENTARY MATERIAL

FIGURE 1.

	CKI alpha Inhibitor
EC50	2.044e-006

Supplementary FIG. 1. 384-well A549 FKR Validation. 384-well dose dependent inhibition of FADD kinase activity in A549 FKR cells. Cells treated with CK1 α inhibitor as described in materials and methods. Two Independent experiments were performed with 16 replicates for each dose. Data points represent the mean \pm SEM for each condition.
