Supplementary Fig. S1

Supplementary Fig. 1. A. Non fasting tail vein blood glucose was measured using a Freestyle Flash glucometer at the indicated times. B. Mouse weight was measured at the indicated times. Solid symbols represent non-diabetic mice, open symbols represent diabetic mice. Squares represent mice on the 0% cholesterol diet, circles represent mice on the 0.12% cholesterol diet. Data shown is mean   SEM from N=7-14/group.
