

**Figure S5. Comparative analysis of the *EcR* and *wg/Wnt-6* genomic regions.** VISTA plots of the genomic regions comprising the genes *EcR* (BAC AC239120) and *wg/Wnt-6* (BAC AC239123) with the orthologous regions in other insects with relevant sequence available: *Bombyx mori*, *Drosophila melanogaster*, *Apis mellifera*, *Tribolium castaneum*, *Helicoverpa armigera*, *Spodoptera frugiperda*, and *Heliconius melpomene*.
