Original manuscript submitted: 08/15/06

Manuscript accepted: 08/17/06

This manuscript has been published online, prior to printing for Cell Cycle, Volume 5, Issue 19. Definitive page numbers have not been assigned. The current citation is: Cell Cycle 2006; 5(19):

<http://www.landesbioscience.com/journals/cc/abstract.php?id=3292>

Once the issue is complete and page numbers have been assigned, the citation will change accordingly.

KEY WORDS

condensin, nucleolus, transcription, chromosome segregation, chromosome condensation, RFB, FOB1

ACKNOWLEDGEMENTS

We thank M. Nomura, T. Kobayashi, S. Roeder and S. Liebman for strains and plasmids; Michael Lichten and A. Hinnebusch for critical reading of the manuscript; K. Bloom and A. Arnaoutov for time-lapse microscopy advice; R. Mehta and J. Panebianco for technical help. This research was supported by the Intramural Research Program of the NIH at the NICHD and at the Center for Cancer Research, NCI.

SUPPLEMENTARY MATERIAL
