

X1: Age patterns of prevalence of infection

X2: Age patterns of parasite density

density

X3: Age pattern of number of concurrent infections

X4a: Age pattern of incidence of clinical malaria

X4b: Age pattern of incidence of clinical malaria

X5: Age pattern of threshold parasite density for clinical attacks

X6: Hospitalisation rate in relation to prevalence in children

X7a: Age pattern of hospitalisation

X7b: Age pattern of hospitalisation

X8: Malaria specific mortality in children

X9: Infant mortality rate
