

APPENDIX 1

Section II: Attitudes (Part 2) – For the following questions, consider an “effective” drug – where “effective” means a drug that has shown a clinically significant improvement in survival for the treatment of a metastatic cancer in larger randomized phase III trials and has been recommended for use by a respected provincial evidence-based guideline group.

14. For effective **INTRAVENOUS** drugs that have been *considered but not approved for funding* by your provincial decision making body, describe which of the following you *currently have access to*

	I Have Access	I Don't Have Access
Private (out of pocket) payment for drug at my cancer centre	<input type="checkbox"/>	<input type="checkbox"/>
Private insurance payment for drug at my cancer centre	<input type="checkbox"/>	<input type="checkbox"/>
Private (out of pocket) payment for drug at a private infusion clinic	<input type="checkbox"/>	<input type="checkbox"/>
Private insurance payment for drug at a private infusion clinic	<input type="checkbox"/>	<input type="checkbox"/>
Clinics in the U.S. where I can refer my patients for treatment	<input type="checkbox"/>	<input type="checkbox"/>

Please elaborate on your responses:

15. For effective **INTRAVENOUS** drugs that have been *considered but not approved for funding* by your provincial decision making body, check how COMFORTABLE you are with using each of the following.

	Don't Use	Very Comfortable	Somewhat Comfortable	Neither Comfortable or Uncomfortable	Somewhat Uncomfortable	Very Uncomfortable
Private (out of pocket) payment for drug at my cancer centre	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Private insurance payment for drug at my cancer centre	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Private (out of pocket) payment for drug at a private infusion clinic	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

	Don't Use	Very Comfortable	Somewhat Comfortable	Neither Comfortable or Uncomfortable	Somewhat Uncomfortable	Very Uncomfortable
Private insurance payment for drug at a private infusion clinic	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Clinics in the U.S. where I can refer my patients for treatment	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

Please elaborate on your responses:

16. For effective **INTRAVENOUS** drugs that have been *considered but not approved for funding* by your provincial decision making body, **describe which SHOULD be available**.

	Should Be Available	Should NOT Be Available
Private (out of pocket) payment for drug at my cancer centre	<input type="checkbox"/>	<input type="checkbox"/>
Private insurance payment for drug at my cancer centre	<input type="checkbox"/>	<input type="checkbox"/>
Private (out of pocket) payment for drug at a private infusion clinic	<input type="checkbox"/>	<input type="checkbox"/>
Private insurance payment for drug at a private infusion clinic	<input type="checkbox"/>	<input type="checkbox"/>

Please elaborate on your response:
