

## Supplementary information, Figure S3

**Figure S3** PPAR- $\gamma$  was the target of miR-27b. **(A)** TargetScan analysis demonstrated that PPAR- $\gamma$  might be the target of miR-27b. **(B)** PPAR- $\gamma$  mRNA 3'UTR sites targeted by miR-27b. **(C)** PPAR- $\gamma$  mRNA 3'UTR is highly conserved among different species.
