

Supplementary information, Figure S3 Exogenous miR-709 precursor or antisense impact miR-709 nucleus fraction both in mouse and human.

A, miR-709 precursor up regulates miR-709 in nucleus in L929 cells. **B**, miR-709 antisense knocks down miR-709 in nucleus in L929 cells. **C**, miR-709 precursor up regulates miR-709 in nucleus in HEK 293T cells.
