## **Supporting Material**

**Figure S1:** Log-log plot of the data shown in figure 6 in the manuscript. The figure shows fitting of experimental data with equation (3) (solid line), equation (5) (dotted line) and equation (7) (triangles) for the treatment with 200 nM Latrunculin (A), control cells (B) and 20 μM Phalloidin (C). The fitting parameters for each equation are given in Table1.
