

Table S3: Functional analysis of progestin regulated gene clusters lost, gained and conserved with expression of FOXA1.

Functional group	Enrichment Score
<i>Lost</i>	
Apoptosis	6.68
Steroid biosynthesis	2.90
Regulation of protein kinase activity	2.41
Protein transport	2.17
<i>Gained</i>	
Blood vessel morphogenesis	3.28
Cell motility	2.03
<i>Conserved</i>	
Mitotic cell cycle	4.37
Wound healing	3.55
Apoptosis	2.40
