

Table 7. 305_6hr_increase

Probe set	Expression level (327, 1h)	Fold induction			quartz, level (327, 1h)	Fold induction			Identifier
		305, 1h	295, 1h	1h		305, 6h	295, 6h	6h	
1 254283_s_at	17	7.2	1.0	13.7	293	2.6	2.1	0.4	AT4G22870 leucoanthocyanidin dioxygenase (anthocyanidin synthase)

Fold induction for 305-1h is averaged from four independent ATH-1 array hybridizations, all others from two independent array hybridizations. Applied threshold is 2-fold. Annotation June 15, 2003.
