

Figure S4

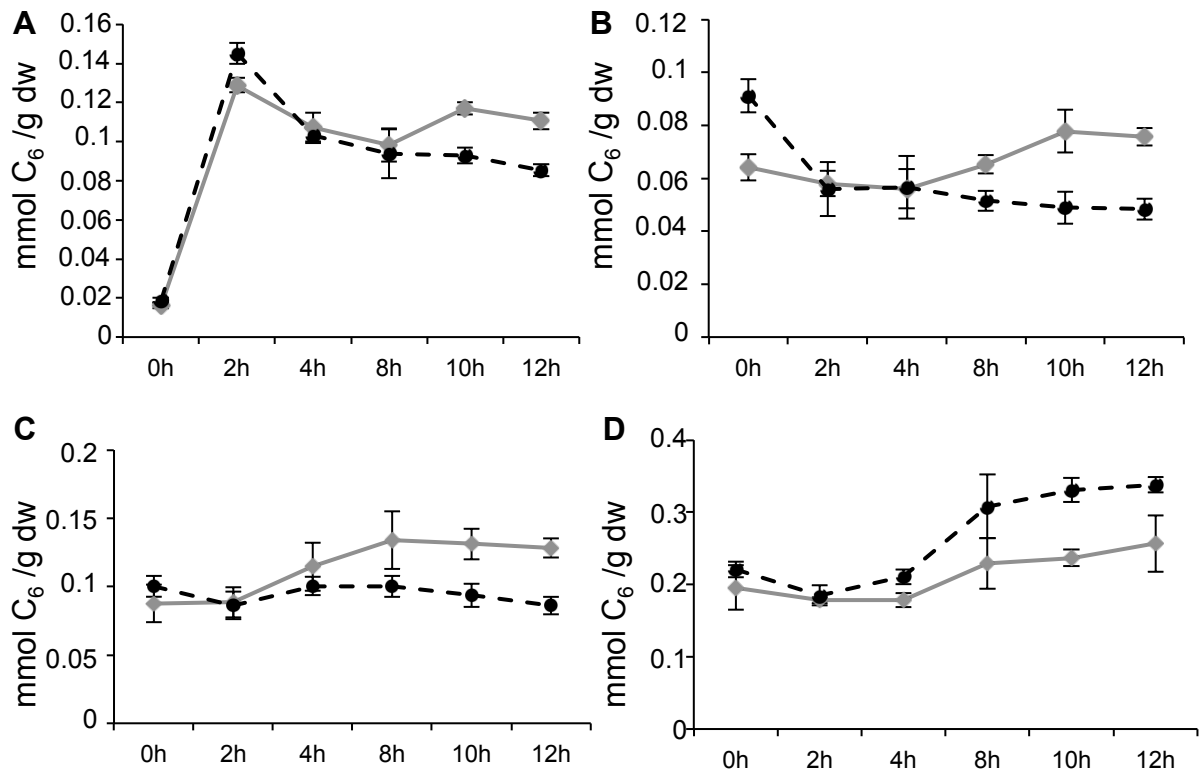

Figure S4: Levels of soluble sugars (glucose, fructose, sucrose) and starch in mock (solid grey line) and DCB-treated (dashed black line) seedlings. X-axis shows time in hours and Y-axis shows levels of soluble sugars or starch in mmol C₆ / g dry weight (dw). **(A)** Sucrose, **(B)** Fructose, **(C)** Glucose **(D)** Starch. Error bars are based on SD.
