

Table S3: Bacterial clones from T0, C9, A9, P9 and R6 from 16S rRNA gene clone libraries from jellyfish-enrichment experiment in 2009 in the Gulf of Trieste with their accession numbers. In the table there is also a name and an accession number of the closest relative in GeneBank (NCBI) with % of similarity, family, taxon and isolation source.

Treatment	Clone	Acc. No.	Closest relative in GeneBank (NCBI), Acc. No.	Similarity	Family	Taxon	Source	
T0	JELLYFISH_T0_A8	JQ432609	Uncultured bacterium clone 3C003027, EU801675	100%	SAR11	Alpha	Sea water
