

SUPPLEMENTAL TABLES

Table 5a. Regression coefficients, constants, and standard errors for the initial regression models among the normative sample of HIV-uninfected women

	Age	Years of education	WRAT-3	African American	Hispanic
Trails A time ^a	.006***	-.012*	-.006*	.163*	.099
Trails B time ^a	.009***	-.019*	-.017***	.088*	.099
Symbol Digit total	-.349***	.673***	.355***	-3.653**	-1.197
Incidental recall	-.083***	.072	.038*	-.806*	-1.058*

Note: a. Log transformed scores were used; * $p < .05$, ** $p < .01$; *** $p < .001$

Table 5b. Regression coefficients, constants, and standard errors for the final, pared down regression models, and Z-scores for the normative sample of HIV-uninfected women

	Age	Years of education	WRAT-3	African American	Hispanic	Constant	SE	Z mean	Z SD
Trails A time ^a	.006***	-.014*	-.007**	.097**	0	3.729	.358	-.0361	.996
Trails B time ^a	.009***	-.020**	-.017***	.093**	0	4.982	.362	.0503	.996
Symbol Digit total	-.349***	.694***	.361***	-2.853**	0	35.679	9.571	-.0017	.996
Incidental recall	-.085***	0	.048**	-.843*	-1.164**	6.537	2.581	-.0004	.996

Note: a. Log transformed scores were used; * $p < .05$, ** $p < .01$; *** $p < .001$
