

# Marine sulfate-reducing bacteria cause serious corrosion of iron under electroconductive biogenic mineral crust

Dennis Enning, Hendrik Venzlaff, Julia Garrelfs, Hang T. Dinh, Volker Meyer, Karl Mayrhofer, Achim W. Hassel, Martin Stratmann and Friedrich Widdel

**Table S2.** Vitamins in used media.

| Vitamin                  | Concentration ( $\mu\text{g l}^{-1}$ ) |
|--------------------------|--|
| 4-Aminobenzoic acid      | 40                                     |
| D(+)-Biotin              | 10                                     |
| Nicotinic acid           | 100                                    |
| Ca-D(+)-Pantothenate     | 50                                     |
| Pyridoxine hydrochloride | 150                                    |
| Folic acid               | 40                                     |
| Liponic acid             | 15                                     |
| Thiamine hydrochloride   | 100                                    |
| Riboflavin               | 25                                     |
| Cyanocobalamin           | 50                                     |
