

**Table S1.** Complete list of topics identified through application of latent Dirichlet allocation to the text corpus filtered for Cognitive Atlas terms. The top 5 words shown for each topic are those which had the highest loading for that topic across documents. The number of documents that loaded on each topic is also listed.

| Topic | Ndocs | Terms   |
|-------|-------|---|
| 46    | 948   | search,visual_search,attention,conjunction_search,focus                                 |
| 74    | 769   | auditory,perception,hearing,attention,listening   |
| 19    | 615   | fixation,attention,movement,focus,goal  |
| 14    | 614   | association,context,learning,attention,memory   |
| 88    | 608   | focus,attention,association,context,knowledge   |
| 43    | 566   | attention,focus,visual_attention,fixation,attentional_resources                         |
| 86    | 519   | decision,decision_making,choice,fixation,uncertainty                                    |
| 6     | 510   | knowledge,semantic_knowledge,association,context,focus                                  |
| 20    | 497   | action,movement,goal,context,perception   |
| 93    | 495   | emotion,valence,arousal,attention,focus   |
| 90    | 494   | inhibition,response_inhibition,attention,motor_inhibition,fixation                      |
| 120   | 483   | judgment,fixation,movement,decision,knowledge   |
| 31    | 481   | perception,attention,visual_perception,focus,integration                                |
| 102   | 476   | action,goal,knowledge,encoding,reading  |
| 47    | 446   | imagery,mental_imagery,visual_imagery,perception,auditory_imagery                       |
| 89    | 444   | action,movement,perception,integration,manipulation                                     |
| 61    | 442   | memory,working_memory,maintenance,visual_working_memory,spatial_working_memory          |
| 105   | 437   | emotion,sadness,context,happiness,attention   |
| 11    | 432   | attention,sustained_attention,executive_control,memory,monitoring                       |
| 116   | 430   | action,action_selection,monitoring,focus,context  |
| 8     | 419   | cognitive_control,monitoring,attention,performance_monitoring,goal                      |
| 129   | 418   | cognition,social_cognition,communication,theory_of_mind,context                         |
| 128   | 409   | movement,focus,attention,fixation,goal  |
| 107   | 401   | language,language_processing,language_acquisition,language_production,learning          |
| 92    | 394   | attention,spatial_attention,fixation,movement,selective_attention                       |
| 106   | 391   | movement,coordination,motor_control,feedback,planning                                   |
| 3     | 389   | memory,episodic_memory,recall,learning,verbal_memory                                    |
| 111   | 386   | memory,working_memory,attention,spatial_working_memory,cognitive_load                   |
| 29    | 382   | learning,error_signal,rule,goal,association_learning                                    |
| 118   | 379   | integration,multisensory,crossmodal,unisensory,multisensory_integration                 |
| 68    | 377   | movement,feedback,search,attention,lying  |
