

accumulation of macrophages
 activation of antigen presenting cells
 activation of cytotoxic T cells
 activation of dendritic cells
 activation of macrophages
 activation of monocytes
 activation of neutrophils
 activation of T lymphocytes
 cell movement of antigen presenting cells
 cell movement of eosinophils
 cell movement of macrophages
 cell movement of T lymphocytes
 chemotaxis of T lymphocytes
 developmental process of antigen presenting cells
 developmental process of B cell lymphoma cells
 developmental process of dendritic cells
 developmental process of macrophages
 differentiation of antigen presenting cells
 differentiation of dendritic cells
 differentiation of macrophages
 differentiation of monocytes
 maturation of dendritic cells
 infiltration by macrophages
 infiltration by monocytes
 infiltration by T lymphocytes
 migration of dendritic cells
 recruitment of macrophages
 recruitment of neutrophils
 recruitment of T lymphocytes
 migration of antigen presenting cells
 cell death of T lymphocytes
 induction of helper T lymphocytes
 induction of T lymphocytes
 modification of T lymphocytes
 proliferation of B lymphocytes
 proliferation of T lymphocytes
 quantity of antigen presenting cells
 quantity of macrophages
