

A**B**

Figure S2 Enviroxime, GW5074, and PIK93 do not affect PI4KIII β recruitment by wild-type 3A or 3A-H57Y. HeLa cells were transfected with plasmids encoding myc-tagged wild-type 3A (**A**) or 3A-H57Y (**B**). One day after transfection, cells were treated for one hour with compounds and subsequently stained for PI4KIII β and myc.
