

FIG. A1. Normalized gene expression panel of duplicated gene pairs in *R. sphaeroides* 2.4.1. Three replications of each growth condition are shown, with the following conditions: (1) 3W, (2) 10W, (3) 100W, (4) 10W DMSO, (5) Aerobic, (6) 2% Oxygen, (7) Dark DMSO. Green represents low levels of expression while red represents high levels of expression.
