FIG. A2. Relationship between normalized correlation values and structural constraints on duplicated genes in *R. sphaeroides*. Out-paralogs are shown in red circles and in-paralogs are shown in blue squares: (A) In-paralog K_a, (B) In-paralog K_s, (C) In-paralog ω, (D) Out-paralog K_a, (E) Out-paralog K_s, and (F) Out-paralog ω.
