

Supplementary Figure S1. Schematic of transgenes used to generate ApoE-rtTA_{M2}:TRE2-TAg transgenic mice

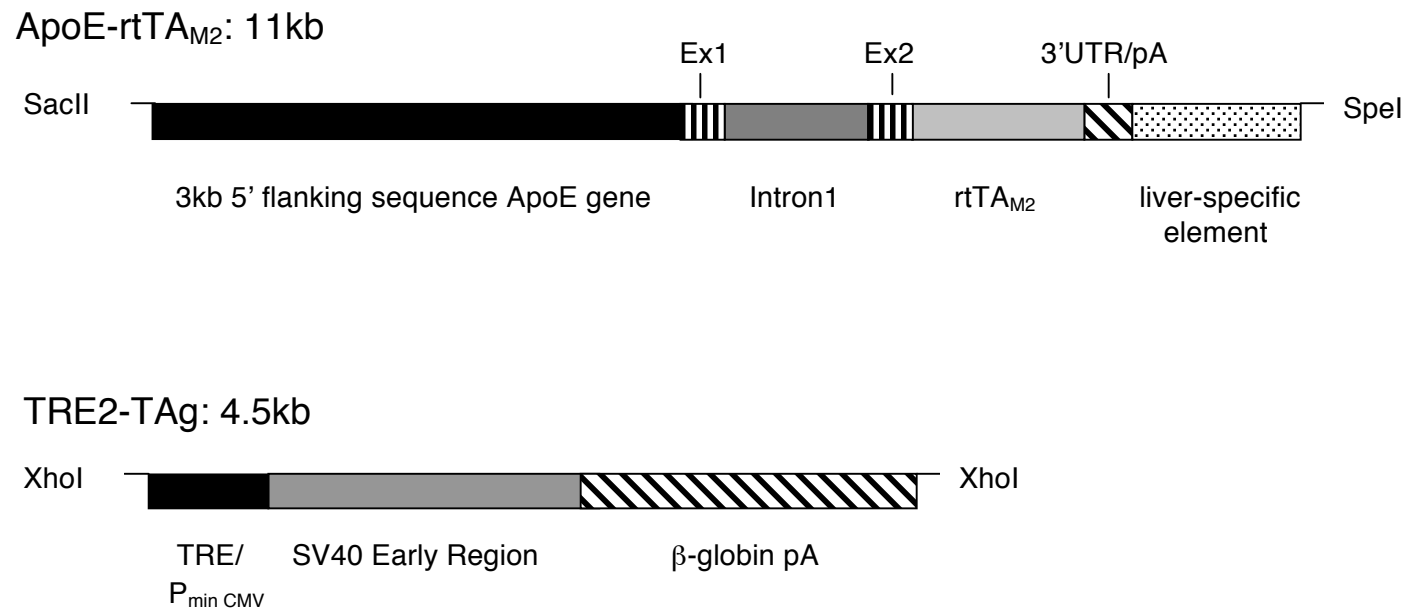

Figure S1. ApoE-rtTA_{M2} and TRE2-TAg transgenes used to generate both lines of ApoE-rtTA_{M2}:TRE2-TAg transgenic mice. Detailed description of transgene construction is described in Materials and Methods. Restriction enzymes used to isolate each transgene prior to microinjection are shown.
