Figure S3. (a) RT-PCR analysis of viral transcripts expressed in livers of ApoE-rtTA:TRE2-TAg 6-1 and 7-1 mice (lanes 2 and 3) and ApoE-rtTA:TRE2-st transgenic mice (lane 4). **(b)** Nucleotide sequence spanning the second 17kT intron of the transcript expressed in livers of 6-1 transgenic mice and corresponding 17kT protein sequence. See Supplementary Results for explanation of figure.
