

## Supplemental Legends

Fig. S1. Gating strategy used to delineate immune cell subpopulations within PBMCs. The dendrogram shows the gating hierarchy for the 12 cell subpopulations with the seven distinct immune cell subpopulations outlined in red.

Fig. S2. Differential activation of cell subpopulations. *A*,  $\text{IFN}\gamma \rightarrow \text{pStat1}$  responses in the seven distinct cell subpopulations for all 60 donors. *B*,  $\text{IL2} \rightarrow \text{pStat5}$  responses in the seven distinct cell subpopulations for all 60 donors.

Fig S3. Healthy immune signaling network map with responsive nodes only. A heatmap representing the magnitude of the Pearson correlation coefficients between pairs of nodes both within and between all seven distinct cell subpopulations. Signaling nodes that did not show a response (Fold values greater than 0.25, see Fig. 1) are excluded from the figure. Increasing positive correlations are shown by increasing green intensity and increasing negative correlations by increasing purple intensity.

Table S1. Thirty-eight signaling nodes measured in the study. All signaling nodes were measured in each immune cell subpopulation.

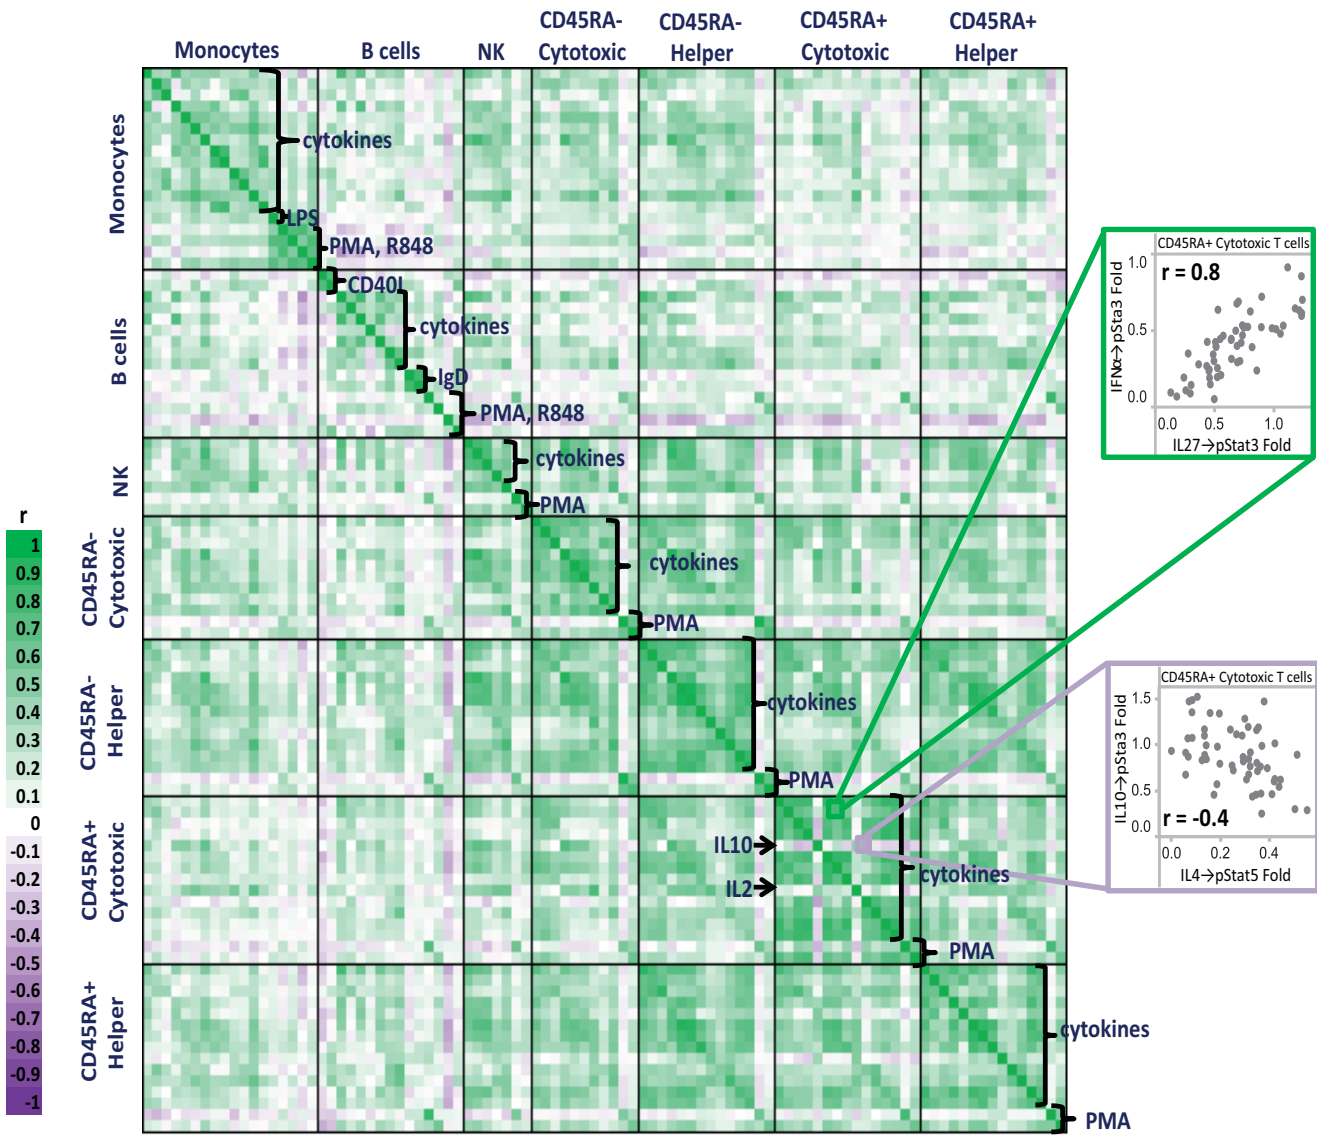

Table S1. Thirty-eight signaling nodes measured in the study. All signaling nodes were measured in each immune cell subpopulation.

	Signaling Node
1	IFN $\alpha$ $\rightarrow$ pStat1
2	IFN $\alpha$ $\rightarrow$ pStat3
3	IFN $\alpha$ $\rightarrow$ pStat5
4	IFN $\alpha$ $\rightarrow$ pStat6
5	IFN $\gamma$ $\rightarrow$ pStat1
6	IFN $\gamma$ $\rightarrow$ pStat3
7	IFN $\gamma$ $\rightarrow$ pStat5
8	IFN $\gamma$ $\rightarrow$ pStat6
9	IL2 $\rightarrow$ pStat5
10	IL2 $\rightarrow$ pStat6
11	IL4 $\rightarrow$ pStat5
12	IL4 $\rightarrow$ pStat6
13	IL6 $\rightarrow$ pStat1
14	IL6 $\rightarrow$ pStat3
15	IL10 $\rightarrow$ pStat1
16	IL10 $\rightarrow$ pStat3
17	IL27 $\rightarrow$ pStat1
18	IL27 $\rightarrow$ pStat3
19	IL27 $\rightarrow$ pStat5
20	IL27 $\rightarrow$ pStat6
21	$\alpha$ -IgD/LPS $\rightarrow$ pS6
22	$\alpha$ -IgD/LPS $\rightarrow$ pAkt
23	R848 $\rightarrow$ pErk
24	R848 $\rightarrow$ pNF $\kappa$ B
25	CD40L $\rightarrow$ pErk
26	CD40L $\rightarrow$ pNF $\kappa$ B
27	PMA $\rightarrow$ pS6
28	PMA $\rightarrow$ pErk
29	Unmodulated $\rightarrow$ pStat1
30	Unmodulated $\rightarrow$ pStat3
31	Unmodulated $\rightarrow$ pStat5
32	Unmodulated $\rightarrow$ pStat6
33	Unmodulated $\rightarrow$ pS6
34	Unmodulated $\rightarrow$ pAkt
35	Unmodulated $\rightarrow$ pErk
36	Unmodulated $\rightarrow$ pNF $\kappa$ B
37	Unmodulated (DMSO) $\rightarrow$ pS6
38	Unmodulated (DMSO) $\rightarrow$ pErk
