

**A**

■ Up on glucose  
■ Down on glucose  
 Relative to other C sources

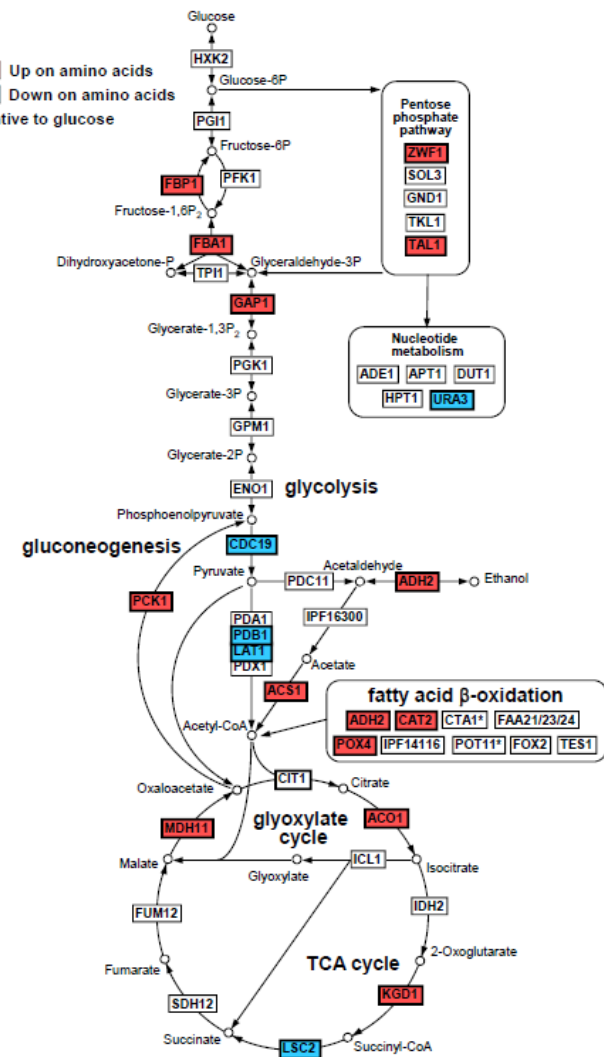

**B**

■ Up on lactate  
■ Down on lactate  
 Relative to glucose

**C**

■ Up on amino acids  
■ Down on amino acids  
 Relative to glucose

**FIG S2:** Impact of carbon sources on central carbon metabolism in *C. albicans*. **(A)** Glucose. **(B)** Lactate. **(C)** Amino acids.
