**Your Opinions about Our Patient and Family-Centred Quality Indicator Survey**

**1. Please rate the patient and family-centred quality indicators using the following criteria:**

|   |   |   |   |   |   |
|---|---|---|---|---|---|
| Simple and easy to understand   | 1 | 2 | 3 | 4 | 5 |
| Likely to elicit honest information about quality of injury care                      | 1 | 2 | 3 | 4 | 5 |
| Directed at important elements of quality of injury care                              | 1 | 2 | 3 | 4 | 5 |
| Missing important patient and/or family perspectives on quality of injury care        | 1 | 2 | 3 | 4 | 5 |
| Includes duplicate items  | 1 | 2 | 3 | 4 | 5 |
| Likely to distinguish between patients and families receiving good care and poor care | 1 | 2 | 3 | 4 | 5 |
| An important tool for measuring, reporting and improving the quality of injury care   | 1 | 2 | 3 | 4 | 5 |

**2. What suggestions do you have to improve the patient and family-centred injury quality indicators?**
