

Supplementary Figure S2. Functions of miR-582 in T24 and 5637 cells. (a) Effect of miR-582-5p and -3p on the proliferation of T24 and 5637 cells. Proliferation values were normalized to values from cells treated with NC ($n=6$). (b) Effect of miR-582 on the invasion of T24 and 5637 cells. Invasive values were normalized to values from cells treated with NC ($n=4$). * $P < 0.05$ versus NC.
